

Deep Research

Determine when Apple first traded above \$50 using Google Finance and two independent primary sources.

6 clues

multi-source

citations

Need: coverage · contradictions · citations

Product Generation

Build a launch-ready pricing workbook from a product brief, with validated plans, formulas, and export assets.

collect

filter

sort

build

send

Need: dependencies · parallelism · persistence

Auto Research

Explain why browser agents fail on long-horizon tasks using primary papers, benchmark reports, and cited evidence.
